Project Proposal

A Community Platform for the Algerian Community in Canada

1. Introduction

Thank you for sharing your vision with us. You want to build a website and mobile app(later) that becomes the go-to platform for the Algerian community across Canada — a place to post and find housing, jobs, cars, and services, and much more, all in one trusted community space.

This proposal explains, in simple terms, how we suggest building this project step by step, so that it grows steadily without unnecessary risk or cost, and so you can see real results early.

2. Our Understanding of Your Vision

You are not looking for a simple classified-ads website. You want a long-term community platform that eventually includes:

- Classified ads: housing, jobs, cars, furniture, and services
- A directory of trusted Algerian businesses and professionals (lawyers, doctors, accountants, mechanics, etc.)
- A newcomer support section for immigration, housing, and administrative help
- Community features: carpooling, skill exchange, tool lending, childcare recommendations, bulk buying
- A trust and reputation system, paid featured ads, and eventually a mobile app

“Building all of this at once would be very costly and slow. Instead, we recommend a practical, phased path — starting small, proving the idea works, and growing feature by feature.”

3. Our Recommended Approach

Think of this project as building a house: we lay a strong foundation first, then add rooms over time as the family (your community) grows. We suggest three stages:

Stage 1 — Foundation (this proposal)

A working **dynamic website** where members can register, post ads, and search/browse listings in the most important categories. This is the version we build now, within your current budget.

Stage 2 — Growth (next step, once Stage 1 is live)

Business directory, ratings and reviews, featured/paid ads, and the trust and reputation system.

Stage 3 — Full Community Platform (long-term)

Mobile app, carpooling, skill exchange, tool lending, childcare section, bulk-order buying, and community events.

This way, you start seeing your platform live and being used by the community quickly, and every future stage is funded by the value the platform is already creating.

4. What Is Included in Stage 1

Within your current budget, we will build and deliver:

- A branded fully responsive website for all platform (desktop and mobile-friendly)
- Member registration and login (Database)
- Ability for members to post ads with photos, price, and description (Admin panel)
- Browse and search ads by category: Housing, Jobs, Cars, Furniture, Services (Custom Categories)
- Filter and sort listings (by city, price, category)
- Admin panel for you to manage listings and users

This gives you a real, usable platform that the community can start using immediately — the strongest possible foundation for everything you plan to add later.

Not Included in Stage 1 (planned for later stages)

- ✗ Native mobile app (iOS/Android)
- ✗ In-app payments for featured/boosted ads
- ✗ Professional directory, reviews, and reputation system
- ✗ Carpool, skill exchange, tool lending, childcare, and bulk-order sections

5. Timeline

Milestone	What Happens	Estimated Time
1. Planning & Design	Simple visual layout for your approval	Week 1
2. Development	Building the website and features	Week 2–4
3. Testing	Checking everything works correctly	Week 5
4. Launch	Platform goes live for the community	Week 6-7

6. Investment (Stage 1)

We understand this is a new venture and you are starting with a limited budget. We have designed Stage 1 to fit within it, so you can launch with confidence and grow from there.

Description	Amount (USD)
Stage 1 — Full website with registration, ad posting, browsing, search, filters, and admin panel	\$590

Suggested payment schedule:

- **25% (\$150)** to begin work
- **75% (\$445)** upon completion, before final handover

“Stage 2 and Stage 3 will be quoted separately once Stage 1 is live and you are ready to grow — there is no obligation to continue, and no hidden costs.”

DOMAIN

Domain Name Registration: Domain Extension (.com / .net / .org): **~\$17 – \$20 / year**

- Domain Privacy Protection: Free / included with standard registrars
- Free SSL Certificate: Included via Let's Encrypt / hosting control panel

HOSTING

1. .NVME Hosting form 6B Tech. **Transparent pricing—renewal rates remain unchanged year after year.**

Package	Storage	.COM	SSL	Email	Backup	Support	Price (USD)
Starter	4 GB SSD	Included	✓	2	✓	Standard	\$20
Standard	6 GB SSD	Included	✓	5	✓	Priority	\$26
Pro	8 GB SSD	Included	✓	10	✓	Priority	\$30
Business	10 GB SSD	Included	✓	Unlimited	✓	Premium	\$36

2. Hosting form Hostinger

Get 1st 12 months(**\$2.99/month**) for **\$47.88** (regular price was ~~\$143.88~~). **Renews at \$10.99/month.**

- 3 websites
- Domain - free for 1 year
- 20 GB SSD storage

- Free weekly backup
- 2 mailboxes per website - free for 1 year

7. Why 6B Tech

- We specialize in building practical, affordable digital platforms for real communities
- We work as your long-term technical partner, not a one-time contractor
- Transparent pricing — you always know what you are paying for and why
- We understand the value of building trust first, and results second

8. Next Steps

If this approach works for you, we can begin as soon as we receive your confirmation and the first payment. We will keep you updated at every step in simple, non-technical terms.

We look forward to building this platform with you. Thanks.
